

Independent Auditor's Report

TO THE MEMBERS OF GUANGZHOU HEXAWARE INFORMATION TECHNOLOGIES COMPANY LIMITED

Report on the Audit of Special Purpose Ind AS Financial Statements

We have audited the special purpose Ind AS financial statements of Guangzhou Hexaware Information Technologies Company Limited ('the Company'), which comprise the Balance Sheet as at 31 December 2019, and the Statement of Profit and Loss (including other comprehensive income), Statement of Changes in Equity and Statement of Cash Flows for the year then ended, and notes to the special purpose Ind AS financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "Ind AS financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31 December 2019 and its loss (including other comprehensive income), its changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit in accordance with the Standards on Auditing (SAs) issued by the Institute of Chartered Accountants of India (ICAI). Our responsibilities under those SAs are further described in the *Auditor's Responsibilities for the Audit of the Ind AS Financial Statements* section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Ind AS financial statements under the provisions of Companies Act, 2013 ("the Act") and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Management's Responsibility for the Ind AS Financial Statements

The Company's management and board of directors are responsible for the preparation of these Ind AS financial statements that give a true and fair view of the state of affairs, profit/loss (including other comprehensive income), changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) notified by the Ministry of Corporate Affairs.

This responsibility also includes maintenance of adequate accounting records for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Ind AS financial statements, management and board of directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility for the Audit of the Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Ind AS financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Ind AS financial statements, including the disclosures, and whether the Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

HEXAWARE INFORMATION TECHNOLOGIES (GUANGZHOU) COMPANY LIMITED
NOTES TO THE FINANCIAL STATEMENTS

1 Corporate Information

Guangzhou Hexaware Information Technologies Company Limited incorporated on 21st May 2015. The Company is engaged in providing business process outsourcing / Call center services. It operates in various service lines like Human Resource outsourcing, Healthcare outsourcing, Finance/ Accounts Management and Knowledge Process Outsourcing. The Company is the Wholly Owned subsidiary of Hexaware Technologies Ltd India.

2 Significant Accounting Policies

2.1 Statement of compliance

The financial statements comply in all material aspects with Indian Accounting standards (referred to as "Ind AS") notified under Section 133 of the Companies Act, 2013 (the "Act") [Companies (Indian Accounting Standards) Rules, 2015] and other relevant provisions of the Act.

2.2 Basis of Preparation

These financial statements are prepared on historical cost basis, except for certain financial instruments which are measured at fair values as explained in the accounting policies below.

These financial statements have been prepared in Chinese Yuan (CNY) which is the functional currency of the Company

All assets and liabilities have been classified as current and non-current as per the Company's normal operating cycle. Based on the nature of services rendered to customers and time elapsed between deployment of resources and the realisation in cash and cash equivalents of the consideration for such services rendered, the Company has considered an operating cycle of 12 months.

2.3 Critical accounting judgements and key source of estimation uncertainty

The preparation of the financial statements requires management to make estimates and assumptions that affect the reported amounts of revenue, expense, assets and liabilities and disclosures relating to contingent liabilities on the date of the financial statements. Actual results could differ from those estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revision to accounting estimates is recognised in the period in which the estimate is revised and in any future period affected.

Key source of estimation uncertainty which may cause material adjustments:

2.3.1 Impairment of Assets

Determining whether asset is impaired requires an estimation of the value in use of the cash-generating units to which asset has been allocated. The value in use calculation requires the management to estimate the future cash flows expected to arise from the cash-generating unit and a suitable discount rate in order to calculate the present value. Where actual future cash flows are less than expected, a material impairment loss may arise.

2.3.2 Others

Others areas involving estimates relates to provision for the doubtful debts.

2.3.3 Revenue Recognition

The Group uses the percentage-of-completion method in accounting for its fixed-price contracts. Use of the percentage-of completion method requires the Group to estimate the efforts expended to date as a proportion of the total efforts to be expended. Efforts expended have been used to measure progress towards completion as there is a direct relationship between input and productivity. Provisions for estimated losses, if any, on uncompleted contracts are recorded in the period in which such losses become probable based on the expected contract estimates at the reporting date and can be reliably estimated.

The Company uses judgement to determine an appropriate standalone selling price for a performance obligation. The Company allocates the transaction price to each performance obligation on the basis of the relative standalone selling price of each distinct product or service promised in the contract. Where standalone selling price is not observable, the Company uses the expected cost plus margin approach to allocate the transaction price to each distinct performance obligation.

Judgement is also required to determine the transaction price for the contract. The transaction price could be either a fixed amount or variable consideration with elements such as volume discounts, service level credits, performance bonuses, price concessions and incentives. The transaction price is also adjusted for the effects of the time value of money if the contract includes a significant financing component. Any consideration payable to the customer is adjusted to the transaction price, unless it is a payment for a distinct product or service from the customer. The estimated amount of variable consideration is adjusted in the transaction price only to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur and is reassessed at the end of each reporting period.

Contract fulfilment costs are generally expensed as incurred except for certain costs which meet the criteria for capitalisation. The assessment of this criteria requires the application of judgement, in particular, when considering if costs generate or enhance resources to be used to satisfy future performance obligations and whether costs are expected to be recovered.

HEXAWARE INFORMATION TECHNOLOGIES (GUANGZHOU) COMPANY LIMITED
NOTES TO THE FINANCIAL STATEMENTS

2.4 Revenue Recognition

Effective January 1, 2019, the company has applied Ind AS 115 which establishes a comprehensive framework for determining whether, how much and when revenue is to be recognised. Ind AS 115 replaces Ind AS 18 Revenue and Ind AS 11 Construction Contracts. The company has adopted Ind AS 115 using the cumulative catch-up transition method, the comparatives have not been retrospectively adjusted and it continues to be reported under Ind AS 18 and Ind AS 11. Refer note 2.7 – Significant accounting policies – Revenue recognition in the Annual report of the Company for the year ended December 31, 2018, for revenue recognition policy as per Ind AS 18 and Ind AS 11. The impact of adoption of the standard on the financial statements of the company is not material.

Revenue is recognised upon transfer of control of promised products or services to customers in an amount that reflects the consideration which the company expects to receive in exchange for those products or services.

In case of contract on time and material basis, transaction-based or volume-based contracts, revenue is recognised when the related services are performed.

2.4 Revenue Recognition

In case of fixed price contracts, revenue is recognized using percentage of completion method. The company uses the efforts expended to date as a proportion to the total efforts to be expended as a basis to measure the degree of completion. The cumulative impact of any revision in estimates of the percentage of work completed is reflected in the year in which the change becomes known. Provisions for estimated losses on such engagements are made during the year in which a loss becomes probable and can be reasonably estimated. Amount received or billed in advance of services performed are recorded as unearned revenue (Contract liability). Unbilled receivables (Contract assets) represents revenue recognized based on services performed in advance of billing in accordance with contract terms.

Revenues related to fixed-price maintenance, testing and business process services are recognized based on our right to invoice for services performed for contracts in which the invoicing is representative of the value being delivered. If our invoicing is not consistent with value delivered, revenues are recognized as the service is performed using the percentage of completion method.

In case of contract on time and material basis, transaction-based or volume-based contracts, revenue is recognised when the related services are performed.

In case of fixed price contracts, revenue is recognized using percentage of completion method. The company uses the efforts expended to date as a proportion to the total efforts to be expended as a basis to measure the degree of completion. The cumulative impact of any revision in estimates of the percentage of work completed is reflected in the year in which the change becomes known. Provisions for estimated losses on such engagements are made during the year in which a loss becomes probable and can be reasonably estimated. Amount received or billed in advance of services performed are recorded as unearned revenue (Contract liability). Unbilled receivables (Contract assets) represents revenue recognized based on services performed in advance of billing in accordance with contract terms.

Revenues related to fixed-price maintenance, testing and business process services are recognized based on our right to invoice for services performed for contracts in which the invoicing is representative of the value being delivered. If our invoicing is not consistent with value delivered, revenues are recognized as the service is performed using the percentage of completion method.

Revenue is measured based on the transaction price, which is the consideration, adjusted for volume discounts, service level credits, performance bonuses, price concessions and incentives, if any, as specified in the contract with the customer. Revenue also excludes taxes collected from customers.

Contracts are subject to modification to account for changes in contract specification and requirements. The company reviews modification to contract in conjunction with the original contract, basis which the transaction price could be allocated to a new performance obligation, or transaction price of an existing obligation could undergo a change. In the event transaction price is revised for existing obligation, a cumulative adjustment is accounted for.

2.5 Leases

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

a) Finance Lease

Assets taken on finance lease are capitalised at lower of present value of the minimum lease payments and the fair value and liability is recognised for an equivalent amount. Lease payments are apportioned between finance charge and reduction in outstanding liability so as to achieve a constant rate of interest on the remaining balance of liability.

b) Operating Leases

Assets taken on lease under which all risks and rewards of ownership are effectively retained by the lessor are classified as operating lease. Lease payments under operating leases are recognised as expenses on straight line basis over the lease term unless the payment to the lessor are structured to increase in line with expected general inflation.

Furnished and equipped premises leased out under operating lease are capitalised in the books of the Company.

HEXAWARE INFORMATION TECHNOLOGIES (SHANGHAI) COMPANY LIMITED
NOTES TO THE FINANCIAL STATEMENTS

2.6 Functional and presentation currency

Foreign currency

Transactions in foreign currency are recorded at the original rate of exchange in force at the time transactions are effected. Monetary items denominated in foreign currency are restated using the exchange rate prevailing on the date of the Balance Sheet. The resulting exchange difference on such restatement and settlement is recognized in the profit or loss, except exchange differences on transactions entered into in order to hedge certain foreign currency risk.

Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date of Balance Sheet. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Assets and liabilities of entities with functional currency other than presentation currency have been translated to the presentation currency using exchange rates prevailing on the balance sheet date. Items in the statement of profit or loss have been translated using average exchange rates. Translation adjustments have been reported as foreign currency translation reserve in Other comprehensive income.

2.7 Employee Benefits

a) Post-employment benefits and other long term benefit plan

The Company contributes to the employee benefit Scheme as per the Labour Law Regulations as applicable in China Republic.

b) Short term employee benefit

The undiscounted amount of short term employee benefits expected to be paid in exchange for the services rendered by employees is recognized as an expense during the year when the employee renders those services. These benefits include compensated absences such as leave expected to be availed within a year, statutory employee profit sharing and bonus payable.

2.8 Taxes on Income

Income tax expense comprises of current tax and deferred tax. Current and deferred tax are recognised in net income, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity, respectively.

Current tax is measured at the amount expected to be paid or recovered from the domestic and overseas tax authorities using enacted or substantively enacted tax rates.

2.9 Impairment of assets other than goodwill

a) Financial assets (other than at fair value)

The Company assesses at each balance sheet date, whether a financial asset or a group of financial assets is impaired. Ind AS 109 requires expected credit losses to be measured through a loss allowance. The Company recognises lifetime expected losses for all contract assets and / or all trade receivables that do not constitute a financing transaction. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition.

b) Non-financial assets

Tangible and Intangible assets

At the end of each reporting period, the Company assesses whether there is an indication that an asset may be impaired. An asset is treated as impaired when the carrying cost of asset exceeds its recoverable value. When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash-generating unit to which the asset belongs or allocated. Impairment loss is charged to the profit or loss in the year in which an asset is identified as impaired. The impairment loss recognized in prior accounting period is reversed if there has been a change in the estimate of recoverable amount.

2.10 Provisions

Provisions are recognised when the Company has present obligation (legal or constructive) as a result of a past event for which reliable estimate can be made of the amount of obligation and it is probable that the company will be required to settle the obligation. When a provision is measured using cash flows estimated to settle the present obligation its carrying amount is the present value of those cash flows; unless the effect of time value of money is immaterial.

HEXAWARE INFORMATION TECHNOLOGIES (SHANGHAI) COMPANY LIMITED
NOTES TO THE FINANCIAL STATEMENTS

2.11 Non derivative financial instruments

Financial assets and liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument. Financial assets and liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value measured on initial recognition of financial asset or financial liability.

A Financial assets and financial liabilities – measurement

(i) Financial assets at amortised cost

Financial assets are subsequently measured at amortised cost if these financial assets are held within a business whose objective is to hold these assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

(ii) Financial assets at fair value through other comprehensive income

Financial assets are measured at fair value through other comprehensive income if these financial assets are held within a business whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

(iii) Financial assets at fair value through profit or loss

Financial assets are measured at fair value through profit or loss unless it is measured at amortised cost or at fair value through other comprehensive income on initial recognition. The transaction costs directly attributable to the acquisition of financial assets and liabilities at fair value through profit and loss are immediately recognised in statement of profit and loss.

(iv) Cash and cash equivalents

The Company considers all highly liquid financial instruments, which are readily convertible into known amounts of cash that are subject to an insignificant risk of change in value and having original maturities of three months or less from the date of purchase, to be cash equivalents. Cash and cash equivalents consist of balances with banks which are unrestricted for withdrawal and usage.

(v) Financial liabilities

Financial liabilities are initially recognised at fair value less any directly attributable transaction costs. Subsequent to initial recognition, these liabilities are measured at amortised cost using the effective interest method.

B Share capital

Equity shares

Incremental costs directly attributable to the issue of equity shares, net of any tax effects, are recognised as a deduction from equity.

GUANGZHOU HEXAWARE INFORMATION TECHNOLOGIES COMPANY LIMITED
NOTES TO THE FINANCIAL STATEMENTS

3 Recent accounting pronouncements

Certain new standards, amendments to standards are not yet effective for annual periods beginning after January 1, 2019, and have not been applied in preparing financial statements. New standards, amendments to standards and interpretations that could have potential impact on the financial statements of the company are:

a) Ind AS 116 – Leases

Ind AS 116 replaces the existing leases Standard, Ind AS 17 Leases, and related interpretations. The standard sets out the principles for the recognition, measurement, presentation and disclosure of leases. The standard introduces a single lessee accounting model and requires a lessee to recognize assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is of low value. The Standard also contains enhanced disclosure requirements for lessees. The effective date for adoption of Ind AS 116 is annual periods beginning January 1, 2020.

The Company is currently assessing the impact of adoption of Ind AS 116 on the Financial Statements

b) Ind AS 12 – Income taxes (amendments relating to income tax consequences of dividend and uncertainty over

The amendment relating to income tax consequences of dividend clarify that an entity shall recognise the income tax consequences of dividends in profit or loss, other comprehensive income or equity according to where the entity originally recognised those past transactions or events.

Ind AS 116 replaces the existing leases Standard, Ind AS 17 Leases, and related interpretations. The standard sets out the principles for the recognition, measurement, presentation and disclosure of leases. The standard introduces a single lessee accounting model and requires a lessee to recognize assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is of low value. The Standard also contains enhanced disclosure requirements for lessees. The effective date for adoption of Ind AS 116 is annual periods beginning January 1, 2020.

The amendments are effective from the annual periods beginning January 1, 2020. The company is currently assessing the impact of adopting the amendments on its financial statements.

15 Financial Instruments (Cont'd)

15.2 Financial risk management

The Company has identified the risks under verticals like client concentration risk, credit risk, and liquidity risk. The Company has formulated policies, procedures and strategies for managing risks which is affirmed by management, after consultation with all business units, functions and department heads.

Client concentration risk

Most of the revenue of 2019 is generated from top 1 client TWG, any loss or major downsizing by this client may impact Company's profitability. Further, excessive exposure to particular clients will limit Company's negotiating capacity and expose us to higher credit risk.

The Company's growth strategy involves a mix of new client addition and mining the accounts of existing clients. As we add more clients and grow our revenues from the existing clients, we naturally reduce our dependence on the large clients. Moreover, large clients allow quick scaling up of revenues and they come with much higher margins due to lower associated cost and higher cost predictability.

Credit risk

Since most of our transactions are done on credit, we are exposed to credit risk on accounts receivable. Any delay, default or inability on the part of the client to pay on time will expose us to credit risk and can impact our profitability. Our maximum credit exposure is in respect of Trade receivable is Nil and CNY 112,012 as at December 2019 and December 2018 respectively.

Our Days' Sales Outstanding DSO including unbilled revenue is 29 days as on December 31, 2018. Refer Note No.4 for the age wise analysis of trade receivables that are not due as well as past due. The company manages its credit risk through rigorous debt collection procedures.

Cash and cash equivalents include current a/c balances with banks with high credit-ratings assigned by credit-rating agencies.

NOTES TO THE FINANCIAL STATEMENTS

15 Financial Instruments (Cont'd)

Liquidity risk

The Company needs continuous access to funds to meet short and long term strategic investment requirements. The Company's inability to meet such requirements in stipulated period may hamper growth plan and even ongoing operations. Further, the Company's inability to quickly convert assets into cash without incurring any appreciable loss will expose it to liquidity risks.

Over the years, the Company has increased its liquidity position by maintaining high cash / bank balances.

The tables below provide details of the contractual maturities of significant financial liabilities as at:

<u>As at December 31, 2019</u>	Curr: CNY		
	<u>Less than 1 year</u>	<u>1-2 years</u>	<u>Total</u>
Employee liabilities Payable	-	-	-
	-	-	-

<u>As at December 31, 2018</u>	Curr: CNY		
	<u>Less than 1 year</u>	<u>1-2 years</u>	<u>Total</u>
Employee liabilities Payable	8,400	-	8,400
	8,400	-	8,400

Interest rate risk

The Company does not have any debt. The bank deposits are in the form of fixed interest rate deposits. Hence, the Company is not significantly exposed to interest rate risk.

16 Earnings per share (EPS)

The components of basic and diluted EPS were as follows:	Currency : CNY
