## Hexaware Accelerates Delivery Solutions with a New Office in Chicago

**Chicago, IL, Thursday, May 22:** Hexaware Technologies [NSE: HEXT], a leading global IT services and solutions provider, is pleased to announce the opening of its newest office located at 145 S Wells St, 15<sup>th</sup> Floor, Chicago, IL 60606. The new center was inaugurated by Jenna Howard – Executive Director of Call Center Technologies at Duly Health and Care, and Allison Radecki, Global CIO – Morgan Street Holdings, alongside key Hexaware leadership, including R Srikrishna, CEO, and Siddharth Dhar, President and Global Head of Digital IT Operations.

This move strengthens Hexaware’s ability to deliver more responsive, personalized IT services, work closely with clients across industries, and tap into the dynamic talent and tech ecosystem of the third-largest city in the United States. **R Srikrishna** said, *“The U.S. continues to lead in digital adoption, and cities like Chicago sit at the heart of that momentum. This office strengthens our ability to support clients as they navigate shifting macro trends, whether it is AI-led transformation or scaling innovation with speed and clarity.”*

*“As our client base grows across the U.S. especially in the Mid-west, this move helps us scale more effectively in the region, both in terms of capabilities and speed. Being in Chicago brings us closer to the people and conversations that matter, so we can deliver better, faster, and more relevant outcomes. Over the next five years, we’re looking to add 250 talented professionals to fuel this momentum,”* said **Siddharth Dhar**.

Healthcare leaders see promise in this expansion as well. **Jenna Howard** shared, *“It’s encouraging to see this kind of tech investment in Chicago’s robust healthcare market. Hexaware’s commitment to our partnership and Duly’s communities help expand access and bring innovation to those who need it most.”*

**Allison Radecki** noted the operational upside, saying, *“Stronger onshore partnerships like this help elevate business performance, especially in areas like compliance, control, and the speed to value.”*

Adding to Hexaware’s growing U.S. footprint, the Chicago office is designed for flexibility, fast decision-making, and deeper collaboration with clients in financial services, healthcare, manufacturing, and more. It also strengthens Hexaware’s commitment to building smarter, faster, more human-centered enterprises—powered by AI, cloud, and data, and driven by purpose.

### About Hexaware

Hexaware is a global technology and business process services company. Every day, Hexawarians wake up with a singular purpose: to create smiles through great people and technology. With offices across the world, we empower enterprises worldwide to realize digital transformation at scale and speed by partnering with them to build, transform, run, and optimize their technology and business processes.
